

Cross Plains ISD appealed to the SLD an Erate decision to deny funding "for unsubstantiated long distance charges" on FRN 972195 in application # 357818. The long distance vendor's invoices were submitted which read as follows: Previous Balance - \$323.55 and Current charges - \$133.64
Previous Balance - \$120.87 and Current Charges - \$202.97
FRN 972195 requested a monthly discount on a monthly charge of \$293.
Cross Plains submitted this amount as a reasonable estimate based on past bills.

Cross Plains received a letter titled "Administrator's Decision on SPIN Change" dated February 15, 2005 which stated a denial of the SPIN Change request.

Cross Plains did not request a SPIN Change for the FRN 972195. On May 20, 2003 Cross Plains sent a certified letter of appeal to the SLD which is described above for a request to reconsider the funding of the long distance phone charges on FRN 972195.

We are confused. The district's appeal addressed unsubstantiated long distance phone charges. The denial letter addressed a SPIN change that we did not request.

Cross Plains would like to appeal to the FCC, if needed, the funding of the FRN 972195 for long distance phone charges. We can FAX the bills to substantiate the amount of \$293 if needed.

Thanks for your consideration of this matter.
